

Shri Learn – Educational Learning Platform

Project Overview

Shri Learn is a modern educational learning platform designed to provide students and professionals with an easy and engaging way to learn new skills online. The platform offers a clean, user-friendly interface that allows users to browse courses, enroll in programs, watch video lessons, and track their learning progress.

Objective

The objective of Shri Learn is to create an intuitive and visually appealing learning platform that enhances the online learning experience. The design focuses on simplicity, accessibility, and easy navigation for users of all skill levels.

Target Users

- Students
- College Graduates
- Working Professionals
- Beginners interested in learning new skills

Tools Used

- Figma
- Inter Font
- Icons
- Figma Prototype

Design Process

The project was developed by following the standard UI/UX design process:

1. User Research

2. Low-Fidelity Wireframe Design
3. High-Fidelity UI Design
4. Interactive Prototype
5. Final Design Review

Key Features

- Secure Login Page
- Modern Home Page
- Course Listing Page
- Course Details Page
- Video Learning Page
- My Learning Dashboard
- User Profile Page
- Easy Navigation Between Screens

Color Palette

Primary Color

Indigo – #4F46E5

Secondary Color

White – #FFFFFF

Background Color

Light Gray – #F8FAFC

Text Color

Dark Slate – #1E293B

Color Selection

The Indigo (#4F46E5) color was selected as the primary theme because it represents trust, creativity, and innovation. The combination of white and light gray backgrounds provides a clean and modern appearance, while the dark text ensures excellent readability and improves the overall user experience.

Typography

Font Family: Inter

The Inter font was selected because it is modern, clean, and highly readable. It improves the visual hierarchy and provides a consistent reading experience across all pages of the website.

Prototype

The prototype demonstrates smooth navigation between the website screens using clickable interactions in Figma.

Profile

UI/UX Principles Applied

- Simple and Clean Layout
- Consistent Color Scheme
- Easy Navigation
- User-Centered Design
- Readable Typography
- Proper Spacing and Alignment
- Responsive Layout Structure
- Visual Consistency Across Pages

Conclusion

ShriLearn was designed by following modern UI/UX design principles to create a simple, engaging, and user-friendly educational platform. The project focuses on improving the learning experience through intuitive navigation, clean visual design, and an interactive prototype. This design demonstrates the complete UI/UX workflow from wireframing to high-fidelity design and prototyping using Figma.
